

Our trade

➤ **APL** is more than just a signage company ; we provide concrete form to your needs, from design through to installation. **APL** is a family run business which was founded in 1999.

It is now run by **Frédéric Maertens** who has more than 10 years experience in this field. He has injected a real sense of dynamism into the business, which was already doing well.

Today, **APL** stands first and foremost for “*The signage you need*”, a slogan that has won over a good number of companies, now our loyal customers, for every type of sign.

Our assets

➤ **Our Dedicated Team**

Our team of Professional workers follow the progress of your project step by step, from the first meeting through to putting the finishing touches on site.

➤ **A multidisciplinary team**

Consisting of sales and marketing managers, a graphic design department and a team of fitters, monitoring each stage of the development of your project.

➤ **Appropriate infrastructure**

Our work area covers several hundred square meters, which provides the ideal structure for carrying out all your small or large-scale projects.

Dansign

Interior Signage

Interior Signage

Engraving

With this well-known technique, you will no longer have to worry about wear and tear over time and passing fashions.

Any number of backing materials and supports are possible, from glass to brass, including stainless steel, PVC and Perspex.

Engraving

made

Windows film

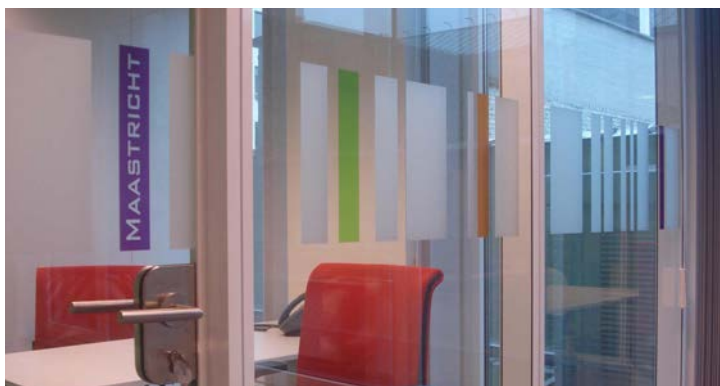

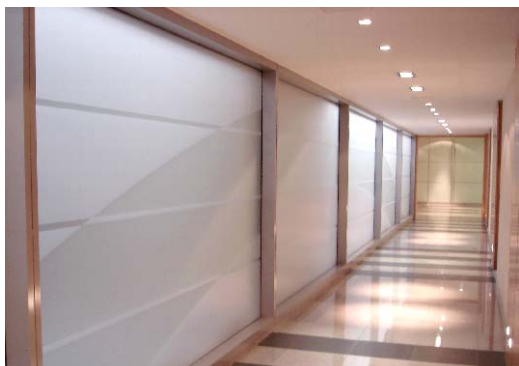

Are you looking for a way of dressing your windows discreetly and elegantly or giving yourself some privacy? Frosted film is the ideal solution and an excellent alternative to frosted glass.

The film is cut out to suit your requirements, with or without motifs (logo, text, shapes, etc.) and is applied directly to the window.

It is translucent, allowing a maximum amount of light through while still providing a degree of privacy.

Relief lettering

made

Relief lettering

Relief or raised lettering adds a simple and elegant touch to your logo, in a wide choice of styles, such as modern in stainless steel or designer with a number of lacquer colours available.

If you would like to add another dimension to your image, this type of solution is very suitable.

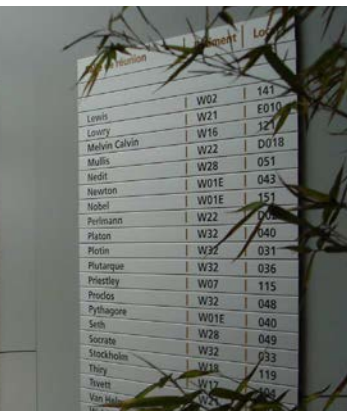

Building directory

How can you direct your customers, suppliers and employees, in a simple and effective way, from the entrance to the building or on the different floors? We can provide you with an ideal solution, which can be adapted to all your requirements, from both a technical and aesthetic point of view.

Whether you need fixing or support systems, you'll be spoiled for choice in finding a sign to suit your interior decor.

Road marking

Appropriate and effective road markings are a great asset. But every detail is different. Based on the way you manage the approach to your company, people can judge how organised and welcoming you are.

We can advise you on your ideal road surface which will give your customers peace of mind.

Whether you choose type A marking (European standard), a permanent or temporary heat-sealed solution, we will endeavour to advise you and find the right solutions for you.

Road sign

The public highway is your company's first showcase, so it is essential to pay careful attention to it. The exterior signage that you decide to use will give you the opportunity to convey a positive corporate image. Clear and effective road signs enable your customer and employees to reach your building easily, thus reflecting effective organisation and a genuine concern for the comfort and convenience of your visitors.

To enable them to find their way around your car parks and other approaches to your building, it is best to stick to the same signs and markings as the highway code for public roads.

As far as this area is concerned, all the types of road signs that you see regularly on the road as well as other, more specific ones are available.

They come in various sizes and categories (flat, reflective, type 2000). We can guarantee you optimum visual impact as well as compliance with the regulations in force.

Safety & Security

Security

Safety & Security

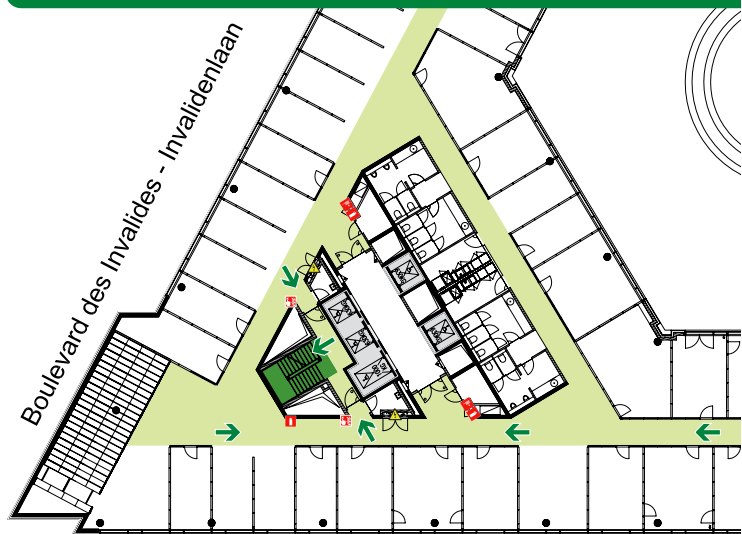

Safety within your company is an aspect that cannot be ignored. Legal obligations specify that we must signpost emergency routes and exits and identify fire-fighting equipment by the appropriate placement of evacuation maps, plans and pictograms indicating extinguishers, hydrants, fire alarms, etc.

The presence of information pictograms (toilets, showers, multipurpose rooms, etc.) also provides discreet but effective signage for your visitors and employees that will meet their needs.

According to your requirements, we can offer you the solution that will comply with the legal regulations and standards as well as suit the style that you are looking for.

Avenue Jules

COMPORTEMENT EN CAS D'INCENDIE

- Fermez les portes
- Restez calme et ne courez pas
- N'ouvrez jamais une porte qui est chaude au toucher
- L'emploi des ascenseurs est strictement interdit
- Laissez votre voiture au parking
- Guidez vos visiteurs pendant l'évacuation
- Aidez les personnes moins valides et femmes enceintes à évacuer
- Ne revenez pas sur vos pas
- Baissez-vous et longez les murs en cas de fumée

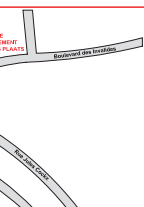

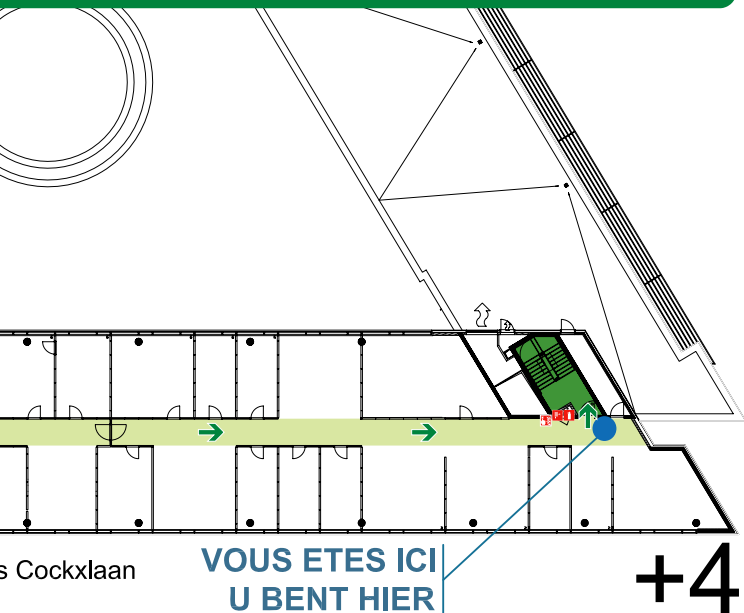

GEDRAG BIJ EVACUATIE

- Sluit de deuren
- Blijf kalm en loop niet
- Open nooit een deur die heet aanvoelt
- Gebruik van de lift bij evacuatie is strikt verboden
- Laat uw wagen in de parking
- Begeleid uw bezoekers gedurende de evacuatie
- Help de minder valide personen en de zwangere vrouwen te evacueren
- Keer niet terug
- In geval van rook, kruip op handen en voeten en blijf langs de muur verder bewegen

Dansign products

We are also the exclusive provider in Belgium of Dansign products rewarded several times by Design Awards.

This range of products covers a large choice of design possibilities as well as for interior than for exterior signage. From customized totem to security icons, we are able to propose the signage you need, combining flexibility, design and friendly use of which you will find hereafter an illustrated outline.

Design

The timeless, minimalist design makes it ideal for any environment, also the environment of the future. The sign is flat and mounted 5 mm off the wall.

Choice of material

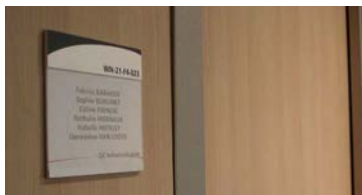

The sign series is produced of 5 mm solid aluminium with a silver anodized finish that gives a hard and resistant surface. The choice of material makes the system suitable for indoor as well as outdoor environments.

Lock System

The magnetic lock system is simple. A hidden spring lock is integrated in the sign, which locks the sign when it is mounted. The sign is released by use of the magnetic key.

Mounting of Sign

To mount a sign is easy. It is mounted on the hidden bracket by custom-made aluminium rivets that mesh with the grooves on the back of the sign.

Plansign

A complete sign system in timeless design
and sturdy material with a unique lock system

Dan Sign

CurveSign

A complete sign system with a slightly curved front and a unique lock system

DanSign

Design

The sign series is designed with a slightly curved front and supplied in colours of your choice as well as in maple wood veneer, suitable for any environment.

Choice of material

The signs are produced of lacquered ABS with extruded aluminium mounting brackets.

Lock System

The magnetic lock system is simple. A hidden spring lock is integrated in the sign locks the sign when it is mounted. The sign is released again by use of the magnetic key.

Mounting of Sign

To mount a sign is easy. The sign is pushed onto the mounting bracket and is locked so that it cannot be removed by unauthorized persons. It is released by use of the magnetic key.

Design

The sign series of classic and simple design is supplied in colours of your choice suitable for any environment.

Choice of material

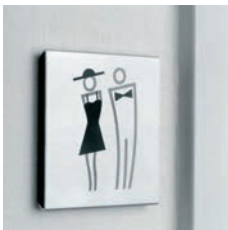

An extruded aluminium profile is pushed onto a cast mounting bracket. The choice of material makes the system suitable for indoor as well as outdoor environments.

Lock System

The magnetic lock system is simple. A hidden spring lock is integrated in the mounting bracket is activated by the magnetic key.

Mounting of Sign

To mount a sign is easy. The sign is pushed onto the mounting bracket and is locked so that it cannot be removed by unauthorized persons. It is released by use of the magnetic key.
